# **GOLD SECURE LIMITED – GHANA** **GOLD REFINERY**

## **MANAGEMENT AND TRADER BAFIS s.a**

### **AN INTERNATIONAL STANDARD FOR QUALITY PRECIOUS METALS**

As one of the oldest and most renowned manufacturers of products for the International Gold Market, the Refining division offers of broad range of products, whose quality is recognized worldwide? Our Gold, Silver, Platinum and Palladium bars in varied size are all accepted as Good London Delivery (GLD) on the International Precious Metals Market. In addition to providing ingots to Banks and financial institutions, the Refining Division supplies pure precious metals to the other divisions of Goldsecure Technologies SA. It also sells precious metals to industrial customers; the form and degree of purity varies according to the individual customer's requirements, and can go as high as 5x9 grades of highly controlled and stabilized impurities.

### **REFINING**

**GOLD SECURE Ltd.** – GHANA Refining Division is an industrial organization specialized in the Evaluation and Refining of precious metals of both primary and secondary origin. Core competence and objective of the Refining Division is to offer its customers a professional, custom tailored and impeccable service with state of the art evaluation methods, equipments and attitude.

The Division Refines materials containing precious metals, such as mining doré, industrial scraps, discarded bars or any other type of substance containing precious metals, as long as recycling is economically worthwhile.

### **A SYMBOL OF CREDIBILITY AND RELIABILITY**

The Refining Division maintains a reputation of GHANAIS precision and Excellency both in services, processing as well as in environmental issues
